

The First Company to be Certified! Minaminihon Total Logistics Service Inc. has Obtained ISO31512 Certification.

~Towards the Provision of High-Quality Cold Chain Logistics in Accordance with International Standards~

Minaminihon Total Logistics Service Inc. (Head Office: Nakano-ku, Tokyo; CEO: Keiichiro Ozono; hereinafter referred to as “our company”), a company that transports chilled and frozen foods, is pleased to announce that it has received certification from the Nippon Kaiji Kyokai (ClassNK) on March 17th at two locations, the Sano Chilled and Frozen Distribution Center and the Fujisawa Sales Office, as the first company to be certified under the international standard ISO31512.

ISO31512 certification

With our mission of “We deliver it at its best.”, we have been providing optimal solutions to our customers’ business issues as an expert in chilled and frozen logistics, utilizing the abundant on-site capabilities and know-how we have cultivated over the past 50 years since our founding.

In order to provide customers with highly reliable services, we obtained certification from a third-party certification organization for the conformity of our high-quality cold chain logistics, and last year we obtained JSA-S1004:2020 certification, a domestic certification.

We have recently acquired the international certification ISO31512 with a view to future global expansion. This will enable our customers to use our cold chain logistics with peace of mind and safety, based on a higher level of social reliability that is recognized internationally. In addition, by undergoing continuous audits, we will maintain a high standard and ensure even higher reliability.

With the aim of continuing to provide our customers with high-quality cold chain logistics, we will also work to obtain certification from third-party certification organizations at our other sales offices, and will work to provide highly reliable services.

※ISO31512

By standardizing and promoting cold chain logistics services in Japan, we aim to create a healthy market centered on appropriate service quality, with the aim of increasing the competitiveness of Japanese logistics companies by making quality visible, and promoting the overseas expansion of logistics companies and the export of agricultural, forestry and marine products and food, etc., the international standard (ISO31512) for cold chain logistics services in business-to-business (B to B) transactions based on JSA-S1004, which was published in June 2020, was published in December 2024.

Minaminihon Total Logistics Service Inc. was established in 1975. With the mission of “We deliver it at its best.”, the company is an expert in food transportation, and focuses particularly on the field of chilled and frozen low-temperature transportation. In addition, in the next-generation cold chain using DENBA DISS’s freshness retention device, the company contributes to solving the food loss problem,

which is a social issue, and contributes to the efforts of client companies to achieve the SDGs.
